11.

The request for reconsideration has been considered but does NOT place the application in condition for allowance because:

12. Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s).

Continuation of 11. does NOT place the application in condition for allowance because: Regarding applicant's aregument the media data is in possession of the recipient before any of authentication is requested not being disclosed in Headings et al. remark pages 7-8, argument is not persuasive because the content is already provided to the user as an advertizement when the user orders and/or before authentication made and the ADs are self executed before access is provided and/or key is provided to the media player (see par. 0006, 0039-0041 and 0056). Moreover the argued subjuct matter is different from "media stream data structure is streamed to a computing device"... as recited in claim 8, and "a distribution server for distributing media streams via streaming to recipients, wherin each media stream includes media content and includes a self-installing, self loading, and self-executing media player"..."each media player initiates the commanication with the authentication server when it self-executes in an environment of a recipient to which it relates." as recited in claim 15. Therefoer the rejections for claims 1-20 are maintained.
